Location:	608 Railroad Street, Joliet, Illinois	

February 23, 1981

Process Alliance Partnership (PAP)
608 Railroad Street
Joliet, Illinois 60436

Attention: Donald E. Matschke

Gentlemen:

This Agency has reviewed your Application for Permit for the above referenced project. The permit application is DENIED because the Illinois Environmental Protection Act, Section 9, and the Illinois Pollution Control Board Rules and Regulations, Chapter 2: Air Pollution, Rule 102, Rule 205(c)(1) might be violated.

The following are specific reasons why the Act and the Rules and Regulations may not be met:

The float oil separator is not equipped with control equipment as required by Rule 205(c)(1).

The Agency has on file verified citizen complaints to the effect that the equipment described in the above-referenced application, either alone or in combination with other sources is causing, threatening, or allowing the discharge or emission of air contaminants, which are causing air pollution, in violation of Rule 102. These complaints allege odor nuisance. Until necessary measures are taken to correct these deficiencies, a permit cannot be issued for the above-referenced application.

ca

The Agency will be pleased to re-evaluate your permit application on receipt of your written request and the necessary information and documentation to correct or clarify the deficiencies noted above. This information must be submitted in duplicate and should reference the application and I.D. numbers assigned above. The revised application will be considered filed on the date that the Agency receives your written request.

If you have any questions concerning this denial, please contact Jim Cobb at 217/782-2113.

Very truly yours,

Bharat Mathur, P.E.
Manager, Permit Section
Division of Air Pollution Control

--	--

This application is for a waste water treatment facility.

The construction permit application C810/003 has been denied

because of the pollution unit not providing the 55% control required

by Rule 205(c)(1) for organic emissions from the plant and storage.

It is recommended that this application be denied for the same

reasons.
